

RIDE. COMMUTE. EXPLORE.

IMPORTANT SAFETY INFORMATION & DISCLAIMER - PLEASE READ BEFORE USE

Read these instructions carefully. Only then will you be able to operate your scooter safely and correctly. Failure to follow this information could result in severe consequences including, death, serious injury or damage to the product.

DISCLAIMER: E-Scooters are used at the user's own risk, please drive safely and always comply to country, local, state and federal laws. The user assumes all liability and risk associated with the use of electric scooter products and holds Net World Sports Ltd and its owners free from any liability caused by their use.

- For adult use only.
- Fully read and understand the E-Scooter Manual provided before setting up, driving and charging scooter for the first time.
- Make sure you have appropriate training, insurance and fully understand controls before use.
- Always wear a helmet and appropriate safety gear/clothing.
- Make sure area, terrain and environment is safe and suitable for driving a scooter.
- Always be aware of uneven surfaces, pedestrians, traffic or other obstacles when riding scooter.
- Do not ride scooter if you have consumed drugs or alcohol.
- Do not use a mobile phone when operating scooter.
- If you have a medical condition or previous injury, please check with your doctor that it is safe for you to ride a scooter. It is advised that pregnant women do not ride a scooter.
- If you have poor balance do not ride a scooter.
- Do not carry passengers or perform stunts.
- Do not loan your scooter to others.
- Do not hang bags or other objects on the handlebars.
- Do not submerge scooter base under water.
- Avoid riding scooter in mud, on icy surfaces or in bad weather such as rain, snow or high winds.
- Do not ride scooter in a thunder storm.
- Scooter can only be operated in temperatures between 14°F - 104°F (-10°C - 40°C).
- We do not recommend operating scooter in temperatures below 32°F (0°C).
- Always store away scooter in a dry area indoors when not in use.
- Storage temperature must be between -4°F - 113°F (-20°C - 45°C).
- Always clean outside of scooter (except charging jack) with a damp, non-abrasive cloth.
- Do not use alcohol, petrol, kerosene or other corrosive/flammable solutions to clean your scooter.
- Always check the entire scooter before every use to ensure it is safe to ride. Assess all parts and pay extra attention to wear and tear parts that will need replacing over time.
- Do not drive scooter if any parts develop a fault, are damaged or need replacing.
- Only replace parts, battery or charger with genuine VICI parts purchased from Net World Sports.
- Do not modify your VICI scooter.
- Keep scooter and charger away from fire and heating appliances.
- Do not leave scooter unattended while charging.
- Do not overcharge scooter battery (charge time is in User Guide Manual).
- Only use VICI battery charger provided.
- Do not use travel adaptor plugs.

More tailored product information, safety information, correct use guidelines and riding advice can be found in the product manuals provided with each scooter.

PRODUCT WARRANTY INFORMATION

VICI E-Scooters are supplied with a 1 year warranty against manufacturing defect. This covers the motor, controller and scooter frame. The battery warranty is for 6 months only.

To activate your free 1 year warranty you will need to visit: <http://www.networldsports.co.uk/warranty> and complete the form. The online form will ask for a serial number which can be found at the base of the scooter. The activation code field is not required.

The warranty excludes consumable items, plus wear and tear components. Examples include (but are not limited to): Tyres, Inner Tubes, Brake Cables/Pads, Handlebar Grips, Foot Deck Grip, Paint Finish, Reflectors, Bungs and Plastic Inserts.

Warranty will also be void for the following reasons:

- Failure to provide proof of purchase.
- Damage or fault cause by not following the instructions set out in the scooter's manual.
- Damage or fault caused as a result of an accident, erratic riding or improper use.
- Water damage caused by improper use in snow, wet or flood conditions.
- Battery damage caused by not following the correct charging and battery care instructions outlined in the scooter's manual.
- Impact damage where the scooter has been dropped or has struck an object.
- Unauthorised repair or modification of the scooter carried out by the user or 3rd party.

Do not ride you scooter if it becomes damaged or develops a fault.

Replacement parts for your VICI Scooter can be purchased from Net World Sports Ltd to get your scooter back up and riding again safely.
