- Lowering USA product & shipping costs.

IN-HOUSE MANUFACTURING

PRODUCT DEVELOPMENT & INNOVATION

We develop products through an elite-driven design approach, shaped by the demands of high level sport and refined for real world use at every level of the game. A constant new product pipeline ensures continuous innovation, with ideas moving quickly from concept to testing and production, driven by in house engineering and close feedback loops. Our product innovation includes:

Alu110 GEN 2 Goals

Our Gen2 Alu110 goals have been reengineered to deliver greater strength, reduced weight, faster assembly, and full compliance with the latest BS EN and ASTM safety standards. Trusted by clubs at every level, they are used by professional teams across the Premier League, MLS, La Liga, A League, and Saudi Pro League.

360 Goal wheels (GEN 2)

Developed with Manchester United, our market leading 360° wheel technology changed goal movement worldwide and set the benchmark competitors still chase. Refined through pro club feedback, it is stronger, more reliable, longer lasting, and easier to use. A top secret new variant of the 360° wheel is now in development, with its reveal coming later in 2026.

Equipment Cart & Trolleys

Our transport carts and trolleys are designed to make equipment storage and movement easier across indoor and outdoor environments. With storage areas, door access, and transport surfaces carefully considered, the range offers a solution for every sporting club, organisation, and school.

Sports Clothing & Teamwear

Our premium yet affordable teamwear collection for players, coaches, and referees spans a range of sports. Made from high quality, quick drying, lightweight fabrics, every garment is designed for lasting performance, with full customisation, printing, and embroidery options available.

Custom ALU110 Team Shelter

Available in 1 and 2 row formats, our FORZA ALU110 Team Shelters come in portable wheel away and fixed models, with a choice of seating and size configurations. Featuring heavy duty plastic or premium Recaro seats, custom colours, branded seats and framework, and tinted or clear Perspex, each shelter delivers a fully tailored elite level finish for your facility.

Hockey Rebounder

A world-unique innovation, this is the only hockey rebounder to feature three interchangeable foam sides straight, angled, and wavy on a single freestanding steel frame. Developed by our in-house team of passionate hockey players, this modular design allows you to swap and customise your rebound profiles for unmatched training variety. Perfect for professional clubs and home use, it is the most versatile and highest-performing rebounder on the market.

Air Pitches

Inflatable pitches transform any area into a professional arena in just 10 to 15 minutes. Whether on grass, sand, turf, or hard courts, these rapid-setup pitches create high-impact spaces for small-sided football games from 3v3 to 7v7. Fully customisable with your logos and colours, they offer the ultimate solution for tournaments and brand activations where speed, flexibility, and visual authority matter.

Padel Rackets & Balls

We offer a comprehensive range of padel equipment under the Vermont brand, catering to players of all skill levels. The racket collection spans from entry-level options, to high-performance models. Beyond rackets, the range includes dedicated padel balls and essential court infrastructure.

OUR AWARDS

Net World Sports has won 50+ awards in recognition of our work and innovation across multiple areas:

"OUR ACHIEVEMENTS ARE A TESTAMENT TO OUR INCREDIBLE TEAM, LOYAL CUSTOMERS, AND STRATEGIC PARTNERS. AS WE CONTINUE TO EXPAND IN THE UK, EUROPE, AND THE US, WE REMAIN FOCUSED ON BUILDING A SUSTAINABLE AND FUTURE-READY BUSINESS THAT SETS THE STANDARD IN THE SPORTS EQUIPMENT INDUSTRY." ALEX LOVÉN - MBE

GROUP EXPANSION BEYOND PRODUCT

Our third party logistics operation in the UK and US, where the business uses its own large scale warehousing, fulfilment infrastructure, and logistics expertise to store, pick, pack, and ship products on behalf of external brands and partners, offers:

-  E-commerce global fulfilment.
-  Cost-effective pallet storage.
-  Based at the 2nd largest industrial estate in the UK.

The aim of Utopia City is to support locals by giving Wrexham businesses an affordable place to expand, help retain business in Wrexham, and to attract outside businesses.

-  Long-term infrastructural of Wrexham Industrial Estate.
-  Over 100 acres of business park catering for warehouse space, truck stops, hotels, drive throughs, nature trails, job generation and more.

KIT SHED

As the first event of its kind, Kit Shed unites Kit & Equipment Managers from around the globe, offering unparalleled networking opportunities, insightful talks from industry leaders, and an exhibition showcasing the latest and greatest equipment. Built with the help of elite kit and equipment managers, the event is hosting annually at St George's Park with industry leading speakers, sponsored by FORZA.

Event for kit & equipment managers from across the globe.

Launched in 2024.

Over 150 different attendees to date, across 3 continents.

The acquisition and rebrand of the FORZA Ball Launcher marks a major step forward in FORZA's performance training journey. By bringing the product fully under the Net World Sports umbrella, the launcher has been refined, strengthened, and aligned with FORZA's premium design language, product standards, and athlete-first mindset. The rebrand is not just visual, it represents a commitment to improved reliability, clearer positioning, and a more professional training solution trusted by clubs, coaches, and players at every level. Integrated into the wider FORZA ecosystem, the Ball Launcher now sits as a core innovation product, built to deliver consistent performance, smarter training sessions, and long term value for modern football development.

SUSTAINABILITY

Net World Sports is dedicated to making a positive impact, both locally and globally.

Implementing sustainable practices across our operations, from sourcing materials and optimising logistics to reducing waste and improving energy efficiency.

NET WORLD SPORTS

“OUR SUCCESS IS FUNDAMENTALLY DRIVEN BY OUR PEOPLE. WE BELIEVE IN NURTURING TALENT AND PROMOTING FROM WITHIN, FOSTERING A DYNAMIC ENVIRONMENT WHERE DEDICATION YIELDS RESULTS.”
