

COSYSPA HOT TUB NON-CHLORINE OXY-SHOCK

INSTRUCTIONS

1. Dose at the rate of 20g per 1000lts of water basis or immediately after heavy use.
2. Ensure circulation is on when adding directly to the water and preferably with all diverter valves open.
3. Leave the Spa / Hot Tub Cover off during treatment.
4. Ensure circulation is running for a minimum of 1 hour to achieve full effect of product.

PRECAUTIONS

- Always ensure bathers are out of the water when adding chemicals.
- Never mix with any other chemicals including cleaning products, weed killers and chlorine products, as a dangerous reaction may occur.
- Always handle products in a well-ventilated area.
- Always wash hands thoroughly after handling chemicals.
- Store in a cool, dry well ventilated, secure place. Ensure chemicals do not become damp in storage.
- Instructions and dosages given are a guide to the most effective use.

WARNING

- This container must not be used or contaminated with any other materials.
