KEEP SAFE!

LITHIUM BATTERIES ARE A POTENTIAL HAZARD IF USED INCORRECTLY!
THE FOLLOWING POINTS HAVE BEEN TAKEN FROM YOUR USER MANUAL
PLEASE READ BOTH CAREFULLY

1. Never leave your scooter unattended while charging in case a fault develops. For example do not charge scooter overnight when you are asleep.

2. Do not leave your scooter in direct sunlight or in areas prone to long periods of sunlight exposure.

3. Charge and store scooter in a clean, dry and cool area indoors away from direct sunlight.

4. Before charging please ensure that the scooter is turned off.

5. Do not overcharge scooter battery – refer to the product Manual for specific charging information.

6. Keep scooter and charger away from fire, heating appliances, water, alcohol, petrol, kerosene or other corrosive/flammable solutions

7. We advise charging and storing scooter at room temperature. Safe temperature range is between: 41°F - 86°F (5°C - 30°C).

8. Only use VICI battery charger provided and never use the charger if it becomes damaged or faulty.

9. Do not use chargers from other suppliers, travel adaptors plugs or extension leads.

10. Do not charge scooter if it becomes damaged or faulty and contact us for advice.

11. Do not submerge scooter deck in water. Water can short circuit the electrics.

12. Do not charge scooter if the charging jack is wet, dirty, broken or loose.

13 If charging jack contains dirt and debris refer to user manual for guidance.

14. If charger is not working, turn off immediately and contact us for advice.

15. Ensure battery charging jack on scooter is always covered by the rubber cap. This should only be open during the charging process.

16. Clean your scooter with a soft damp non-abrasive cloth only; never use water.

17. Always wear a safety helmet and safety gear when riding your scooter.

18. It is essential that you read all sections of your product manual before charging or using your scooter.

Lithium batteries must be treated with care. In the event of a fire call the Fire Service immediately - 999 in the UK.
